Kiran Chhetri

Project 1

Name: footballerstats.com

Description: A website that shows/tracks all statistics of a footballer and football team. It will show their current season record. The amount of goals scored vs conceded. Which teams they played against. All trophies won. History of each match they played and when. And the amount each player/team is worth.

Pages:
- All time stats
- Current season stats
- Match history
- Trophy records
- Detailed stats
- Amount ($) worth

Data:

We will be storing the following (and more):
- Wins and losses
- Goals scored and conceded
- Trophies and awards
- Match ratings
- Expected goals/assists
- Worth
- Season record
- All time record
- Record against specific teams
- International records

All of the data listed above are statistical facts so it will be inputted using an api. The website simply shows the data for users to see so no need for logging in.
